

# ***GREEN CLAIMS ASSESSMENT FRAMEWORK***

**[speedyhire.com](https://speedyhire.com)**

## GREEN CLAIMS ASSESSMENT FRAMEWORK

When considering claims outside of the Green Claims Database, copywriting colleagues and/or external agencies should use the following framework for Assessment Considerations to verify the terminology used:

### IMPACT

#### Materiality

- Is the claim material to the total environmental impact of the product, service or business?
- Are the claimed benefits or reduced impacts significant?

#### Credibility & Significance

- Are the claimed benefits or reduced impacts significant?

#### Innovation

- Does the claim demonstrate environmental improvements versus the conventional equivalent (i.e. the legal/industry standard)?

#### Customer

- Does the claim resonate and align to customer expectations, and what they value?

## EVIDENCE

### Substantiation

- Is the claim substantiated with up to date, credible scientific evidence?
- If the claim makes any comparisons, are these made with equivalent evidence?

### Verification

- Is the claim and/or supporting evidence third-party verified?

## COMMUNICATION

### Terminology

- Does the claim use any vague or generic terminology?
- Is the claim clear to understand or confusing?

### Accuracy

- Does the claim imply a sustainable benefit or reduced impact?
- Does the claim terminology mislead consumers to believe the product is more environmentally beneficial than it is?
- Does the claim hide or omit any important information?

### Visual Representation

- Does the claim use any visuals (e.g. colours, imagery, iconography) that could mislead consumers, misrepresent the extent of the environmental benefit achieved, or are presented incorrectly?

## COMPLIANCE

### Regulatory Compliance

- Is the claim compliant with the relevant green claims regulation/guidance in the market where it is made?

If you come across a claim you don't understand and can't find it on this list, email our Marketing team at [marketing@speedyhire.com](mailto:marketing@speedyhire.com) for clarification.
