

WORKING IN PARTNERSHIP WITH

40 LEADENHALL PROJECT

In 2020 at the early stages of the project, Speedy Services started to support Mace and subcontractors on the 40 Leadenhall project with products and services.

In 2021 due to the scale of works and the ambition from both companies, the partnership was broadened to integrate an On Site shop occupied by Speedy Services for 2 years. This innovation resulted in reduced logistics, carbon footprint, project downtime, improved ESG impact and more.

> **946** consumables sold

> **460** items hired

> **100+** deliveries saved est.

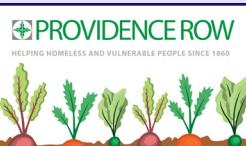

> **267** hours of downtime saved in total est.

SPEEDY / MACE ON SITE INNOVATIONS

Rockfall Foot Clinics

Speedy Services organised multiple Foot Clinic Days on behalf of Mace at 40 Leadenhall Street. Foot Protection being the one of the most used and impactful types of PPE, Mace adapted the promotion of old boot swap outs to increase wellbeing, recycling, overall health, reduce injuries and downtime.

Utility lite Led Zone Strip Lighting

Speedy Services showcased the lighting innovation from Utility Lite which the Project team at Mace adapted to utilise on project Green Route Zones and Live Working Red Zones to provide safe, visual representation of zones.

SPEEDY / MACE HEALTH, SAFETY AND WELLNESS INNOVATION DAYS

We carried out over **20** innovation days, which included:

- Foot Clinic Days
- Drop Tool Prevention Demo Days
- PPE Events
- Cold Cutting Innovation Events
- Dust Control and Management Demo Days
- Working at Height Safety Events
- Wellbeing Clinics
