THE WORLD'S FIRST HYDROGEN  
POWERED BOOM

## OUR STORY

**The next ten years will define the next hundred. So we need to make this decade count. It's time to act. It's time to deliver sustainable hire to all.**

For 45 years people have trusted us to deliver what they need to get the job done, and we're not stopping now. Hire is already a sustainable business model, but it could be even better. That's why Speedy is accelerating.

We're rolling out our plan to make hire - and the services, solutions and equipment that make it all possible - even more sustainable than it already is. Serving people, communities and the planet better than ever.

To get this done, we're working even harder with our customers and suppliers to bring this great sustainable choice to more people, places and products than ever before.

**BY 2027 WE AIM  
TO HAVE 70% OF OUR  
PRODUCTS\* ECO.**

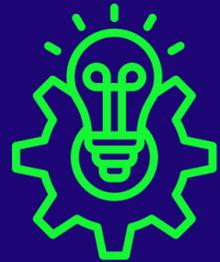

**\*BY VOLUME.**

# DECADE TO **DELIVER**

## Speeding up on sustainability.

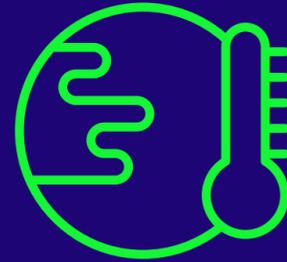

We have always been at the forefront of sustainability and innovation. During FY2023 we developed our new ESG strategy 'The Decade to Deliver', inspiring people to make hire their first choice.

**Our strategy focuses on four pillars:**

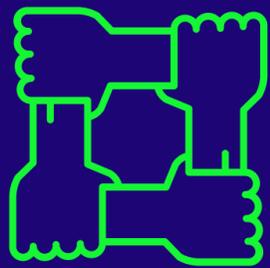

### ACCELERATING INNOVATION

Hire is already built for sustainability. But this decade, we're going to make hire even more sustainable than it already is by working even harder with our customers, suppliers and innovators.

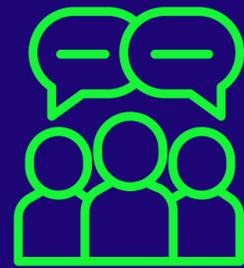

### CLIMATE SOLUTIONS

When it comes to climate change, we're all facing the heat. We're going net zero carbon fast and we are helping our customers do the same. That means accelerating towards low carbon delivery vehicles and innovative products and services to help our customers respond rapidly.

### INCLUDING EVERYONE

Delivering on the promise of a sustainable future, Speedy Hire requires great people working together on shared goals. At Speedy Hire we look out for one another and help each other grow. By welcoming everyone into the Speedy Hire family and helping them be the best they can be, we can really make this decade count.

### PART OF THE COMMUNITY

Speedy Hire people are part of local communities all over the country. It is in our nature to join in, help solve the challenges we face today and get ready for the future. A decade of supporting our communities will help make a meaningful difference.

# PRODUCT ICON KEY

**HYBRID TECHNOLOGY**  
Dual power source, typically a battery with an engine driven generator to recharge the battery pack.

**HYDROGEN POWERED**  
Products that are powered and recharged by hydrogen.

**CARBON SMART**  
Products that reduce engines exhaust emissions (CO<sub>2</sub> and NO<sub>x</sub>). This applies to stage IV and stage V engines.

**POLLUTION PREVENTION**  
Products that prevent pollution by stopping spillage of oil and fuel.

**RESOURCE EFFICIENT**  
Products that require less resource to operate and transport than the standard equivalent.

**DUST REDUCTION**  
Products that help reduce dust emissions. This applies to dust extractors and dust suppression equipment.

**RECYCLABLE**  
Products that are made of recycled materials and/or are part of a recycling programme.

**NOISE REDUCTION**  
Products in this category help reduce noise emissions. This applies to acoustic blankets and sound barriers.

**CORDLESS/BATTERY POWERED**  
Products powered by either a removable/rechargeable battery or larger equipment where a battery is fixed into place.

**SOLAR OPERATED**  
Products that are powered and recharged by solar energy.

**ENERGY SAVING**  
Products that use less energy than the equivalent standard product.

Some of the products in our range might have more than ONE ECO feature, but we have allocated their most prominent ECO icon.

# THIS IS ZERO CARBON MX FUEL

The Milwaukee battery-powered MX Fuel system not only provides all the power of corded and petrol-powered light equipment, but also produces zero tailpipe emissions.

With the elimination of tailpipe fumes and emissions, this new platform allows the user to reduce their carbon footprint, as well as improving health and safety. That's because harmful fumes, noise and vibrations usually associated with the running of light industrial equipment are eliminated.

As a result, productivity is increased as users can work indoors, in trenches, tunnels or even mines without any petrol headaches. This new system not only saves the end user time with refuelling and starting up, but provides a saving on petrol consumption and engine maintenance.

[BROWSE OUR MX FUEL RANGE](#)

## WHY CHOOSE MX FUEL?

- **REDUCE CO<sub>2</sub>**: Rechargeable MX Fuel™ tools do not require the use of combustion motors, reducing the generation of CO<sub>2</sub> on-site.
- **REDUCE PARTICULATES**: By eliminating the usage of petrol and diesel in tools on-site, fewer particulates are released into the local atmosphere. MX Fuel™ technology keeps workers and the public safer.
- **REPLACE PETROL**: Each MX Fuel™ tool features a POWERSTATE™ Brushless Motor that is efficient and long-lasting. And high-capacity REDLITHIUM™ rechargeable batteries are industry-leading with a robust design that can cope with the rigours of the site.

## **MILWAUKEE** MX FUEL DH2528H DEMOLITION HAMMER

- Milwaukee MX Fuel DH2528H cordless 28 mm demolition hammer, delivering the power of petrol, corded and pneumatic.

Product Code: **11/0267**

## **MILWAUKEE** MX FUEL COS350 350MM CUT OFF SAW

- Milwaukee MX Fuel COS350 350 mm battery powered cut-off saw to deliver the power to cut reinforced concrete with a full 350 mm cut capacity.

Product Code: **15/0216**

## **MILWAUKEE** MX FUEL DCD150 DIAMOND CORE DRILL

- Milwaukee MX Fuel DCD150 cordless diamond core drill is a versatile wet or dry diamond drilling system for hand-held or rig-based coring in small to medium diameters.

Product Code: **10/0079**

### ACCESSORIES

**MILWAUKEE** MX FUEL CP203 3.0AH BATTERY 2.7KG - Product Code: **10/0491**

**MILWAUKEE** MX FUEL XC406 6.0AH BATTERY 4.8KG - Product Code: **10/0492**

## MILWAUKEE MXFCVBP-602 MX FUEL BACKPACK CONCRETE VIBRATOR

- The Milwaukee MX FUEL™ backpack concrete vibrator provides consistent starts and reliable pours with maximum power for optimal consolidation.
- It is the ideal solution when working on larger areas, delivering AC like performance without the hassle of laying cables.

Product Code: 18/0452

### ACCESSORIES

- 18/0456 MX FUEL BACKPACK 4M VIBRATOR WHIP
- 18/0458 MX FUEL VIBRATOR HEAD 50MM
- 18/0459 MX FUEL VIBRATOR HEAD 38MM

## MILWAUKEE MX FUEL 3.1M LED LIGHTING TOWER 72V

- TRUEVIEW™ high definition light output with up to 27,000 Lumens in AC and up to 20,000 Lumens in DC mode.
- Low weight of 48 kg with the two big all-terrain wheels, this tower light is easy to transport across wet and uneven job site terrains with minimum effort
- Due to the motorised mast, the tower light is capable to be set up in less than 10 sec.

Product Code: 22/0109

# WORKING AT HEIGHT

Product range

## THE NIFTYLIFT HYDROGEN POWERED BOOM

The HR15H2E Narrow Articulated Boom, Niftylift's innovative product, represents a significant step forward in sustainability by utilising a hydrogen fuel cell for power.

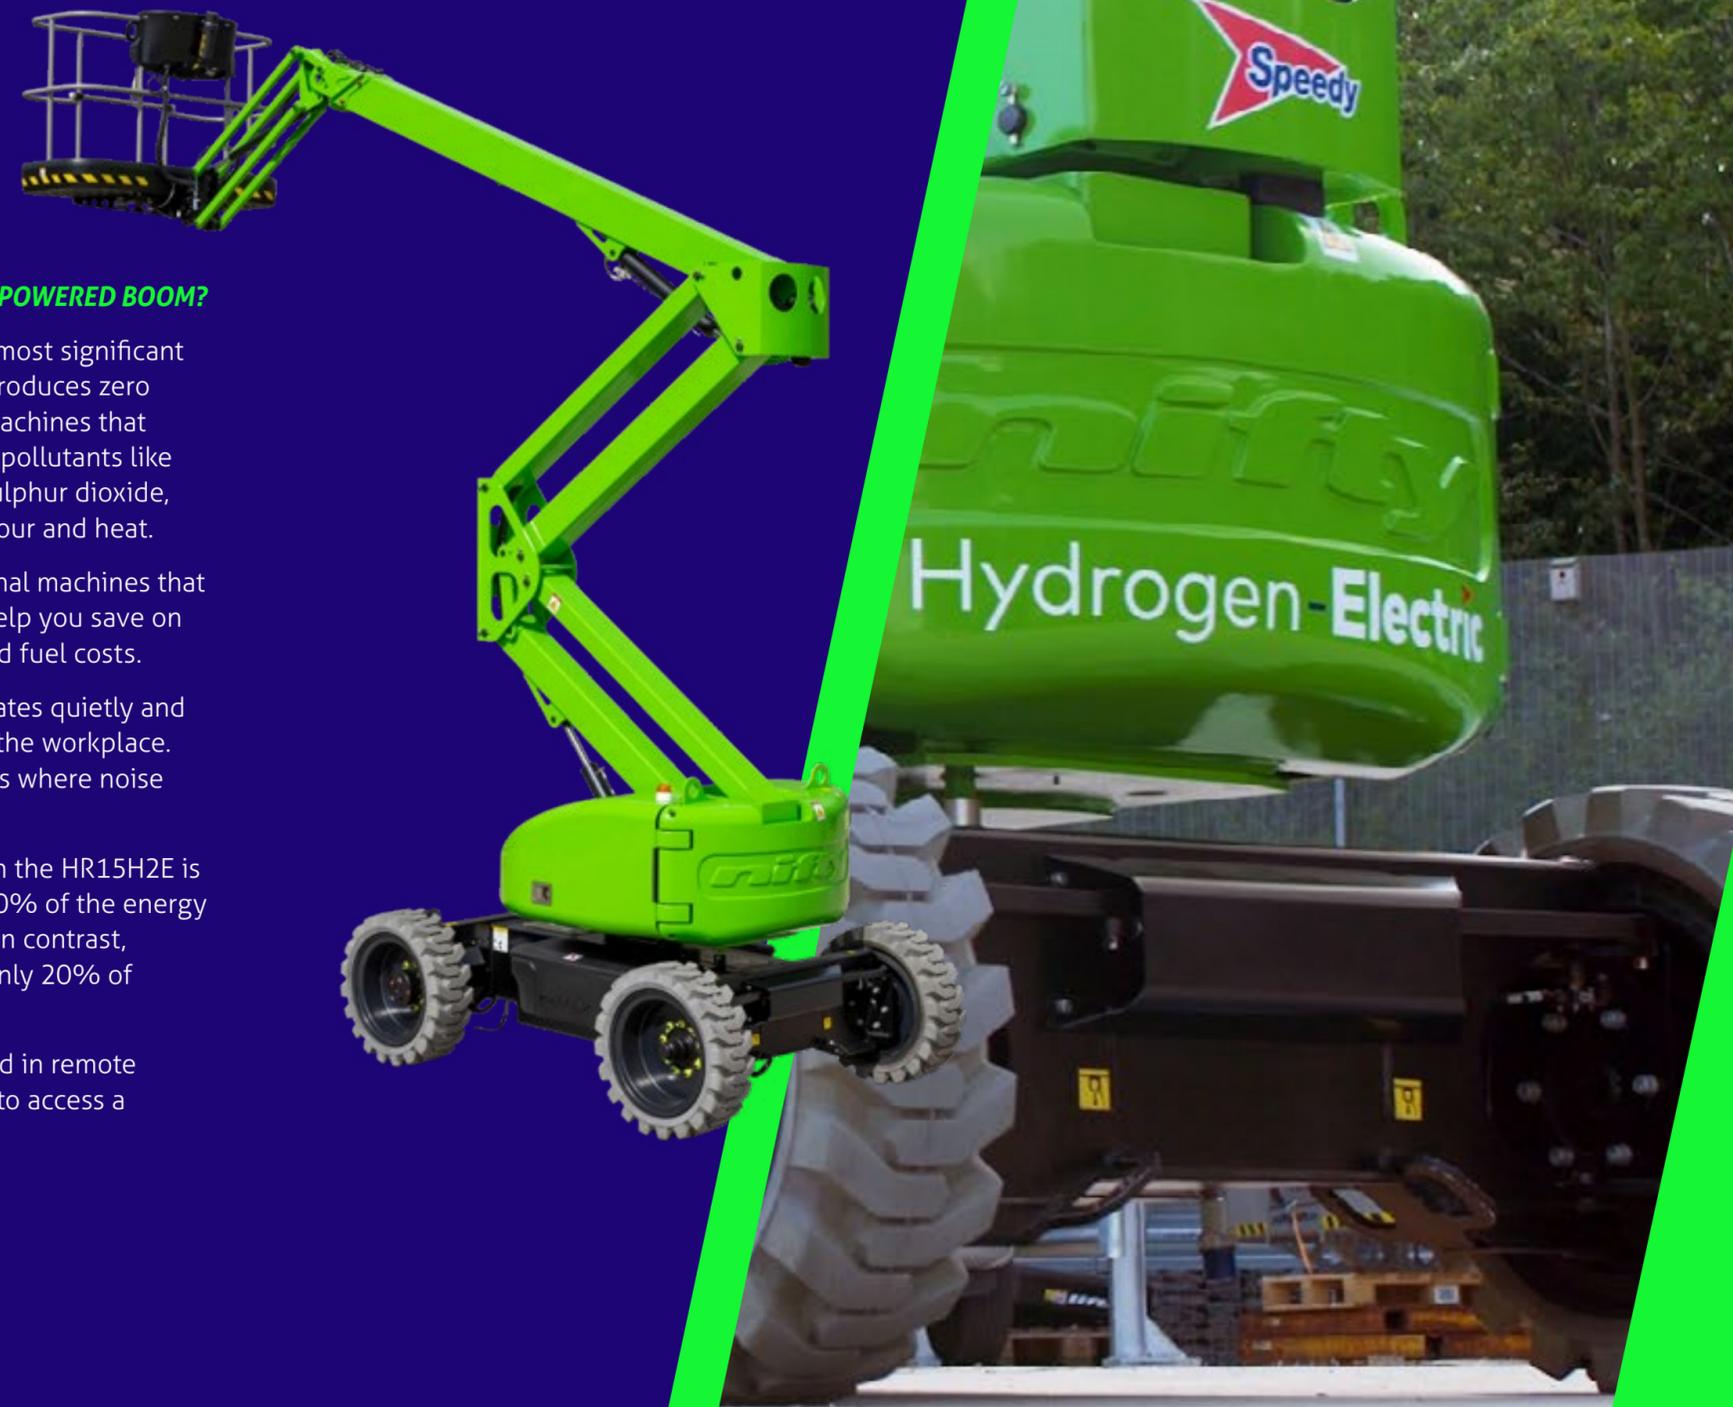

Unlike conventional machines that rely on fossil fuels, which are known for their negative environmental impact, noise pollution, and costly operations, the HR15H2E provides numerous advantages that can help businesses become more efficient, cost-effective, and environmentally friendly. Offering a working height of 15.7m with an outreach of 9.4m, a turret rotation of 355 degrees non-continuous, and a cage rotation of 180 degrees.

Product Code: 77/0101

AVAILABLE  
ONLY AT  
SPEEDY  
HIRE

### WHY CHOOSE THE NIFTYLIFT HYDROGEN POWERED BOOM?

- **ZERO TAILPIPE EMISSIONS:** One of the most significant advantages of the HR15H2E is that it produces zero tailpipe emissions. Unlike traditional machines that run on fossil fuels, which emit harmful pollutants like carbon dioxide, nitrogen oxides, and sulphur dioxide, the HR15H2E only produces water vapour and heat.
- **COST-EFFECTIVE:** Compared to traditional machines that run on fossil fuels, the HR15H2E can help you save on operating costs, maintenance costs, and fuel costs.
- **QUIET OPERATION:** The HR15H2E operates quietly and efficiently, reducing noise pollution in the workplace. This is particularly useful in urban areas where noise pollution is a major concern.
- **HIGH EFFICIENCY:** Running on hydrogen the HR15H2E is highly efficient and converting up to 60% of the energy stored in the fuel to electrical energy. In contrast, internal combustion engines convert only 20% of the energy stored in fuel to power.
- **VERSATILITY:** The HR15H2E can be used in remote locations where it may be challenging to access a reliable power supply.

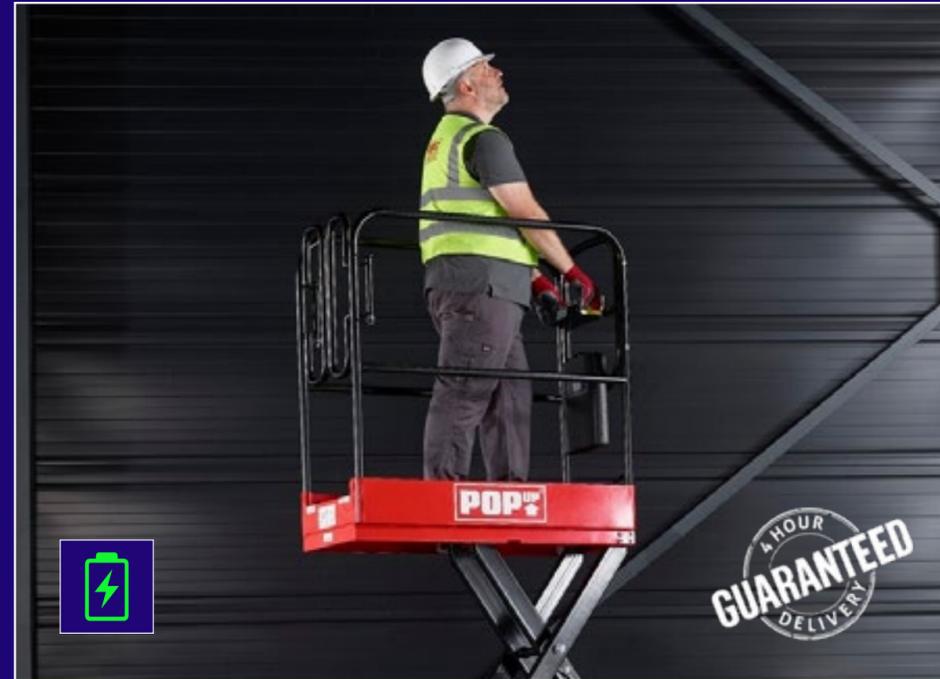

### **DINGLI JCPT0607DCS 5.6M SCISSOR LIFT**

- A self-propelled scissor lift with an electric motor drive.
- It's compact dimensions enable it to fit through most standard doorways and it's tight turning circle allow it to operate efficiently in confined spaces.
- Ideal for carrying out cleaning and maintenance work or accessing racking.

Product Code: **77/5297**

### **POP-UP PRO10IQ PUSH WORK PLATFORM 2.97M**

- The Pop-Up Pro10iQ Push Around Lift is designed to provide a safe access solution for working at height.
- This push around is suited for low-level access and can withstand the demands of everyday use on site while offering enhanced safety features.

Product Code: **26/2984**

### **DINGLI AMWP11.5-8 ELECTRIC MAST LIFT 9.20M**

- Dingli AMWP11.5-8 electrically powered vertical mast is designed to elevate workers and their tools to working heights.
- Features a compact narrow base with a tight turning circle that ensures excellent manoeuvrability.
- Suitable for warehouses, construction, and industrial environments.

Product Code: **26/2974**

## **SKYJACK SJ3219 7.8M SCISSOR LIFT**

- Electrically powered platform scissor capable of manoeuvring in confined indoor and outdoor sites.
- Suitable for a wide range of construction, maintenance, and industrial applications offering a quiet, compact and versatile machine with zero tailpipe emissions.

Product Code: **77/5280**

## **NAVIGATOR 6 ECO PUSH AROUND SCISSOR LIFT PLATFORM 4M**

- The Navigator 6.0 is a mechanical scissor operated push around platform, reaching a working height of 6 metres.
- A manually operated unit that can be continually used without any charging required.

Product Code: **26/3031**

## **SKYJACK SJ16 6.58M MAST LIFT SWL 227KG CAPACITY**

- Variable speed with up to 30% gradeability.
- Useful when there is only a small working footprint available.
- Suitable for light-duty construction and maintenance applications.

Product Code: **77/5286**

## **NIFTYLIFT HR12N 12M BI FUEL ARTIC BOOM NARROW**

- Niftylift HR12N articulated boom is designed to elevate workers and their tools to working heights. Features compact narrow base with a tight turning circle that ensures excellent manoeuvrability.
- Suitable for construction and industrial environments.

Product Code: 77/1314

# VR TRAINING OUR NEW INNOVATIVE VR SIMULATOR

**Speedy Training are thrilled to announce that we are working with IPAF and Serious Labs to deliver training using Virtual Reality (VR) technology.**

IPAF operator training is invaluable in providing practical, theoretical and hands on knowledge of how to safely operate a MEWP.

## **WHY CHOOSE VR TRAINING?**

Some of the benefits of utilising our state-of-the-art Virtual Reality Training Simulators include:

- Operators familiarised with MEWP use.
- Practice in responding to risk.
- High risk operating scenarios in a risk free environment.

Simulators have the very clear advantage of not putting the user at risk while allowing them to learn, develop and more importantly, make mistakes without risk of danger.

The virtual reality simulator realistically mimics the sensation of boom lift and scissor lift operations allowing operators to experience a true-to-life look and feel of operating a MEWP in a safe and controlled environment.

# CORDLESS

Product range

## THE CORDLESS RANGE

We are proud to stock a full range of cordless power tools from leading manufacturers including Hilti, Makita and Milwaukee.

In partnership with Milwaukee, we introduced the innovative red lithium-ion battery technology into our cordless range, ensuring the equipment we supply is as efficient and environmentally friendly as possible.

Progressing from this, we continue to invest in suppliers who have innovated with sustainable and efficient cordless technology throughout all our product categories, further strengthening our commitment to sustainable product development.

### MAKITA DHP482RTJ COMBINATION HAMMER DRILL

- The Makita DHP482RTJ 18v is a cordless combination drill designed for hammer drilling, drilling and screwing which can be used on construction materials such as concrete, brick, wood and metal.
- Ideally suited for building and construction environments.

Product Code: 10/0355

### STIHL TSA230 230MM CUT OFF SAW

- Stihl TSA230 230mm cordless cut off saw can be used in conjunction with abrasive wheels for cutting metal or stone, also diamond tipped blades for cutting concrete.
- An ideal product for construction or industrial use.

Product Code: 15/0215

## **HILTI TE6-A36 ROTARY HAMMER DRILL SDS PLUS**

- Hilti TE6-A36 36v cordless rotary hammer drill designed for drilling, hammer drilling and chiselling which can be used on construction materials such as concrete, brick, metal and wood.
- Ideally suited for building and construction environments.

Product Code: **11/0140**

## **HILTI TE 60-A36 ROTARY HAMMER DRILL SDS MAX**

- Hilti TE 60-A36 36v cordless rotary hammer drill designed for hammer drilling and chiselling which can be used on construction materials such as concrete, brick and stone.
- Ideally suited for building and construction environments.

Product Code: **11/0191**

## **MILWAUKEE M18FPD2-502X 18V CORDLESS COMBINATION DRILL**

- Milwaukee M18FPD2-502X 18v cordless combination drill designed for hammer drilling, drilling and screwing which can be used on construction materials such as concrete, brick, wood and metal.
- Ideally suited for building and construction environments.

Product Code: **10/0354**

## MILWAUKEE M18 ONESX-502X 18V CORDLESS RECIPROCATING SAW

- The Milwaukee M18 ONESX-502X 18v cordless reciprocating saw is designed for cutting metal, wood, pruning and composite materials.
- The saw is equipped with high cutting efficiency while ensuring low vibration.
- Suitable for all areas especially those without mains power.

Product Code: 15/0476

## MILWAUKEE M18CHX-502X ROTARY HAMMER DRILL SDS PLUS

- Milwaukee M18 Fuel SDS-PLUS hammer drill delivers up to 2.5 (J) and can drill to 26mm in concrete, 13mm in steel and 30mm in wood.
- Low vibration at 8.9m/s<sup>2</sup>.
- 4-mode operation: rotary hammer, hammer only, rotation only and variolock for maximum versatility.

Product Code: 10/0283

## MILWAUKEE M18 ONEID-502X 1/4" IMPACT DRIVER

- The Milwaukee M18 ONEID-502X 1/4"n hex impact driver connects via bluetooth with the Milwaukee ONE-KEY app.
- Allows for complete tool customisation, allowing you to tune the tool to your needs.
- Configure to any application choosing optimum tool settings for repeatable precision.

Product Code: 12/0218

## MILWAUKEE M18 CAG115XPDB-502X 115MM ANGLE GRINDER

- Milwaukee M18 CAG115XPDB-502X 115mm cordless angle grinder is designed to use abrasive discs for cutting or grinding metal and stone or a diamond blade for cutting masonry and concrete.
- Cordless design makes this flexible and ideal for various work environments.

Product Code: 13/0186

## MILWAUKEE M18 ONEFHIWF12-502X 1/2" IMPACT WRENCH

- The Milwaukee M18 impact wrench delivers 1,356Nm of fastening torque in a compact size of 213 mm, which gives more access in tight spaces.
- The 1/2" drive is ideal for tightening and releasing nuts, bolts, anchors and wood screws.

Product Code: 02/0294

## MILWAUKEE M18 FMDP-502C MAGNETIC DRILL 13KG

- 2-speed gearbox for optimised drilling speed, a maximum drilling capacity of 38mm with the use of annular cutters and 13mm straight shank twist drill bits.
- 40x18mm holes per battery charge.
- Ideal for all aspects of drilling in steelwork where there is no power supply.

Product Code: 10/0171

## **ALTRAD BELLE MINIMIX 150E+ TIP-UP CONCRETE MIXER**

- The Altrad Belle Minimix 150E+Tip-Up battery powered mixer that produces zero tailpipe emissions.
- It can be used both indoors and outdoors, as well as in poorly ventilated spaces.
- It's heavy duty design makes it perfect for use in a wide range of applications, from construction sites to DIY projects.

Product Code: **03/0043**

## **WACKER AS50E TRENCH RAMMER BATTERY POWERED C/W CHARGER**

- Wacker Neuson AS50e 280mm battery powered trench rammer suitable for a variety of different applications including reinstating asphalt and compacting construction materials and soil.
- Features reduced hand-arm vibration levels and is emission free allowing you to work in poorly ventilated or sensitive areas.

Product Code: **18/0175**

## **WACKER NEUSON AP1850E 500MM PLATE COMPACTOR 51V**

- 500mm battery powered forward plate compactor designed for compaction across various materials.
- Suitable for use in low emission areas with one battery charge lasting for a full working day.

Product Code: **18/0087**

# SPEEDY HIRE HAV PRODUCT SELECTOR

## Introducing the revolutionary new way to select your HAV tools.

When selecting a power tool it is common practice to automatically opt for the tool with the lowest vibration, which will allow you the maximum amount of time to get the job done. But is this the best way to achieve productivity?

Customers and more specifically the end user can now make a more informed choice with our HAV Product Selector, selecting their equipment based on their exposure action value (EAV), measured specifically for the task in hand, along with the ability to view a short video demonstrating best practice for each piece of kit.

### WHY CHOOSE THE HAV PRODUCT SELECTOR?

- Increased productivity
- Reduced HAV
- Cost efficiencies
- Access to the latest technological innovations

The newly launched digital HAV product selector can be accessed for free through the Speedy Hire App.

WATCH HOW TO USE THE APP

# CORDLESS RAIL

Product range

## **ROBEL 62.20 BATTERY POWERED TAMPER**

- The Robel battery powered vertical tamper is designed to correct the track level beneath steel, concrete and wooden sleepers.

Product Code: 35/1641

## **ROBEL 12.20MSB BATTERY POWERED RAIL BAND SAW**

- Robel 12.20MSB battery powered rail band saw designed for economical cutting of maximum strength rails.

Product Code: 35/0011

## **ROBEL 30.20 IMPACT WRENCH 43V**

- The Robel 30.20 battery powered impact wrench is a compact and robust machine.
- Specifically designed for the railway environment to tighten and loosen nuts, sleeper and fishplate bolts.

Product Code: 35/0883

## **CEMBRE LD-16B-RP RAIL DRILL 36V**

- The Cembre rail drill is a fast fuel and fume free eco friendly drilling system.

Product Code: **35/0104**

## **CEMBRE SD-19BR2-RPE SLEEPER DRILL 36V**

- The Cembre SD-19BR2-RPE rail drill is a purposely designed for the drilling of wooden sleepers.

Product Code: **35/0242**

# SPEEDY HIRE AND OXFORD PLASTICS A JOINED UP APPROACH TO SUSTAINABILITY

Working in partnership to reduce carbon emissions in the supply chain.

### END OF LIFE

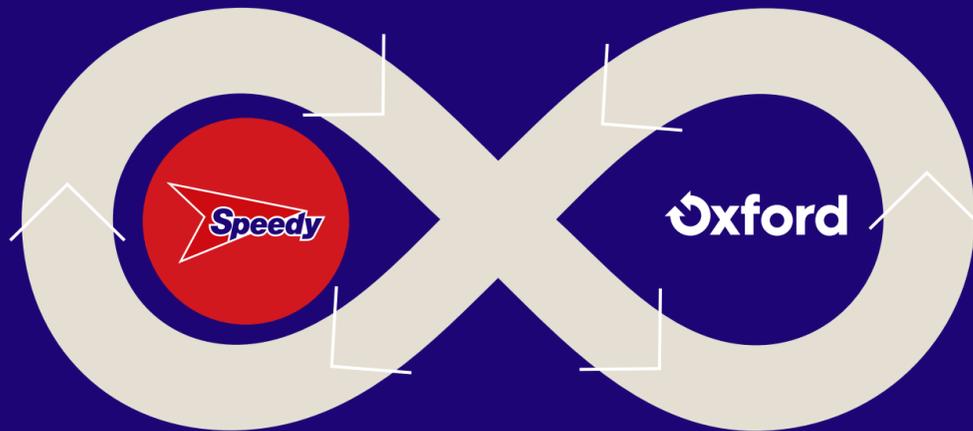

Ethical disposal of products which can be reused and recycled.

### RAW MATERIALS

Increasing the content and use of recycled plastic, either as a source material, or from reprocessing goods at the end of life stage.

### TRANSPORTABILITY AND REPAIRABILITY

Man liftable and compact products that require less logistics in use. Products that are maintained in depot to prolong life and usage.

### PRODUCT DESIGN

Recyclability, transportability, repairability and durability built into the design phase of products, to minimise CO<sub>2</sub>e as a lifetime benefit to the end-user.

### ECO PRODUCT RANGE AND UTILISATION

Servicing end-user demands through innovative ECO product solutions. Equipping the customer base to deliver on their own ESG objectives.

### OPS ESG FRAMEWORK

Our people, business values and ethics. Long terms targeting of CO<sub>2</sub> emissions by reducing our site carbon footprint.

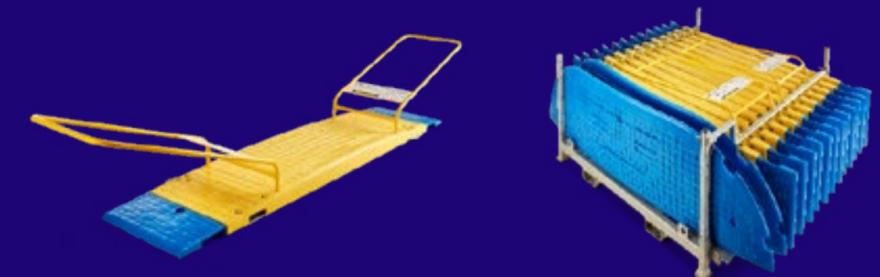

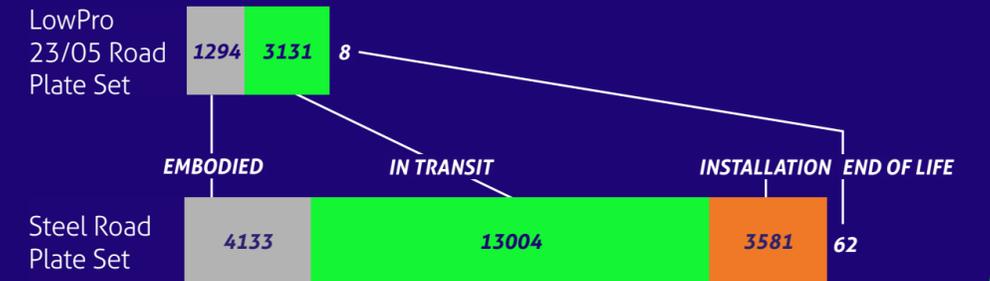

# LIFE-CYCLE CARBON FOOTPRINT

LowPro 23/05 Road Plate vs. Steel Road Plates covering a 6m road width.

**79%**

**REDUCTION IN CO<sub>2</sub>e EMISSIONS**  
LowPro 23/05 Road Plates compared to using traditional steel plates\*

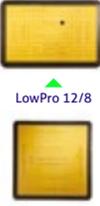

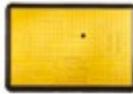

### ROAD PLATE LIFETIME CARBON FOOTPRINT COMPARISON (KGCO<sub>2</sub>E)

# WHY CHOOSE THE LOWPRO SYSTEM?

Composite, light weight alternative to steel road plates. Here are the benefits:

- **SAVES MONEY:** Man-liftable road plates save on heavy-lifting equipment on site. No need for re-surfacing every 6 months.
- **SAVES TIME:** Securely cover a 6m trench in 10 minutes. Install and move by hand. Tarmac ramps are not needed.
- **SAVES CARBON EMISSIONS:** The equivalent of using LowPro 23/05 instead of steel plate reduces 79% of CO<sub>2</sub>e emissions over the lifetime of the product. Huge saving from transport and installation emissions.
- **SAVES INJURIES:** Moving and handling 500kg steel plates can result in crushed hands and fingers. At 65kg per unit, LowPro 23/05 is far lighter and safer to handle on site. Plates don't bounce when driven over, lock into place and adapt to the bumps in the road.
- **SUPER STRONG:** LowPro 15/05 has equivalent load rating as a 8x4ft 20mm steel plate. LowPro 23/05 and LowPro 15/05 support up to 44t vehicles over an excavation.

MAXIMUM TRENCH WIDTH	WHAT TYPE OF TRAFFIC WILL CROSS THE TRENCH?		
	FOOTWAY 400KG	DRIVEWAY 3.5T VEHICLE	CARRIAGEWAY 44T VEHICLE
100 <sup>MM</sup> 4"	 LowPro 100	 LowPro 100	 LowPro 15/05
700 <sup>MM</sup> 2 FT	 LowPro 12/8 LowPro 11/11	 LowPro 15/10	 LowPro 15/05
900 <sup>MM</sup> 3 FT	 LowPro 15/10	 LowPro 15/10	 LowPro 23/05
1200 <sup>MM</sup> 4 FT	 LowPro 15/10	 LowPro 23/05	 LowPro 23/05

### **OXFORD PLASTICS** TRENCH COVER BOARD 1.2X0.8M SWL 2T

- The 1.2x0.8m trench cover is designed for to make excavated areas accessible for vehicles and pedestrians.
- Suitable for up to 2 tonne vehicles over a 700m trench.

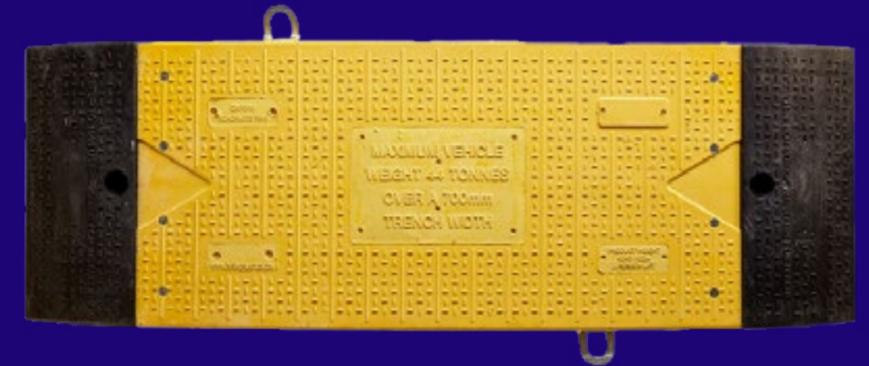

Product Code: **01/0081**

### **OXFORD PLASTICS** TRENCH COVER BOARD 1.1X1.1M SWL 1.6T

- The 1.1x1.1m trench cover is designed for to make excavated areas accessible for vehicles and pedestrians.
- Suitable for up to 1.6 tonne vehicles over a 700m trench.

Product Code: **01/0083**

### **OXFORD PLASTICS** TRENCH COVER BOARD INNER 1.5X0.5M SWL 44T

- The 1.5x0.5m trench cover inner is designed for use with the trench cover end to make excavated areas accessible for vehicles and pedestrians.
- Suitable for up to 44 tonne vehicles over a 700m trench and can be linked together to cover longer excavations.
- To be used in conjunction with the end plate supplied separately.

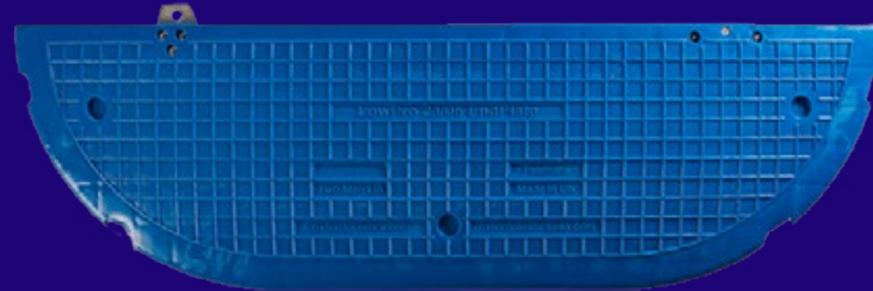

Product Code: **01/0073**

### **OXFORD PLASTICS** HEAVY DUTY ROAD PLATE YELLOW 2.3X0.5M

- A 2.3x0.5m anti slip road plate designed to be used as a temporary road surface for traffic and pedestrians.
- The road plate can be used to cover temporary excavations on roads and pavements by adding more sections to cover longer excavations.

Product Code: **01/0006**

### **OXFORD PLASTICS** HEAVY DUTY ROAD PLATE BLUE 2.3X0.7M

- A 2.3x0.7m anti slip road plate end designed to be used in conjunction with a yellow road plate as a temporary road surface for traffic and pedestrians.

Product Code: **01/0007**

### **CUSACK** CU-FC17 ORANGE REFLECTIVE Q-FENCE BARRIER 2X1M

- Highly durable and versatile designed to provide barrier control at events and sites.
- Non-conductive, single person lift and installation to minimise costs, and a one piece unbreakable unit to ensure no broken welds. 100% recyclable, and no mesh reduces potential injuries.

Product Code: **01/0296**

# *ECO LIGHTING*

*Product range*

## **GENERAC V20 ECO HYBRID 8.2M LED LIGHTING TOWER HYBRID**

- An all in one solution comprising of a battery-powered supply, hybrid power and Stage V engine.
- The V20's fuel saving features such as the Stage V engine and the LED lamps, this model can run up to 143 hours without refuelling.
- The V20 also features one of the lowest sound pressure level in the industry: only 58 dB(A) at 7 meters.

**Product Code: 22/0066**

## **MILWAUKEE MX FUEL 3.1M LED LIGHTING TOWER**

- The Milwaukee MX Fuel is a 3.1m LED lighting tower which features TRUEVIEW™ high definition light output with up to 27,000 Lumens in AC and up to 20,000 Lumens in DC mode.
- Low weight of 48 kg with the two big all-terrain wheels, this tower light is easy to transport across wet and uneven job site terrains with minimum effort.

**Product Code: 22/0109**

## **MILWAUKEE M18HSAL-502B 2.15M LIGHTING TOWER LED**

- Milwaukee M18HSAL-502B LED stand light features TrueView HD lighting technology.
- 3 impact resistant adjustable heads that can be rotated 180° vertically and pivoted 240° horizontally to have the perfect workplace illumination.
- This light has multiple uses such as a torch, worklight and area light.

**Product Code: 22/0049**

## **TRIME X-SOLAR** 8.5M LED LIGHTING TOWER SOLAR

- The Trime X-Solar is a 8.5m emission-free tower light that operates from solar and battery power, with 4 x energy saving LED lamps.
- The 4 x 360W solar panels make this suitable for areas where noise reduction is required.
- Suitable for construction, rail and outside events seeking carbon-neutral site lighting.

Product Code: **22/0003**

## **TRIME X-ECO** 8.5M LED LIGHTING TOWER DIESEL

- The X-ECO allows you to benefit from fuel savings, reduced tailpipe emissions and increased run-time.
- Suitable for not only for the construction industry but also events, road maintenance, security applications and much more.
- The X-ECO works at maximum power with low costs.

Product Code: **22/0198**

## **GENERAC VB9+** 8.5M LED LIGHTING TOWER DIESEL

- The Generac VB9+ 8.5m diesel lighting tower with 4 x 300W LED lights.
- This model provides efficient fuel economy and excellent illumination suitable for onsite use and roadworks.

Product Code: **22/0089**

## **EXIN-LIGHT IN120L 1.1M PORTABLE LIGHT LED**

- The Exin-Light IN120L portable light is lightweight, portable and free standing.
- Features single and double sided light option, is battery powered with a built-in charging cable storage compartment.
- Can be used in both wet and dry environments.

Product Code: **80/0700**

## **UTILITY PARTS 25M UTILITY LITE LED**

- The 25m Utility Lite is a continuous flex of LED's, 180 per metre enclosed in a clear flexible plastic sheath which enables the entire work area to be surrounded by continual LED light.
- Ideal for use in the construction industry.

*VARIOUS LENGTHS AVAILABLE*

Product Code: **22/1007**

## **RITELITE K9 30 LED 1.8M PORTABLE WORK LIGHT LED**

- The Ritelite pro link LED beam control head is an efficient LED linkable track light compatible with generators and batteries suitable for rail use.

Product Code: **35/0508**

## **K21 BEAM CONTROL GANTRY LIGHT WITH DAISY CHAIN CONNECTORS**

- The Ritelite K21 LED beam control twin head is a rugged high powered flood light suitable for uses in area that require higher lighting demands such as rail applications.

**Product Code: 35/0501**

## **RITELITE PORTABLE BATTERY PACK LI-ION**

Ritelite SLK1770BP industrial portable power generator suitable for indoor and outdoor use. Ideally suited for use on construction sites.

- Rugged, strong and waterproof
- Compact and lightweight
- Highly portable & can be easily carried or moved with built-in wheels
- Multi-functional display to easily view charge status, battery capacity, estimated run or recharge time
- Safe to operate and in-built protection from overload, over-heating & over-discharge

**Product Code: 35/0543**

## **RITELITE P3500 & P7000 BATTERY POWERED GENERATORS**

The Ritelite portable 3,500 battery powered generator is a robust constructed energy bank suitable for rail use with power tools, lighting and construction equipment.

- Provides a flexible power supply for remote location
- Rugged, strong construction suitable for use outdoors & on construction sites
- Portable & can be easily carried or moved with 2 persons
- Multi-functional display to easily view charge status, battery capacity, estimated run or recharge time
- Virtually silent operation with zero emissions
- Clean energy suitable for use indoors
- In-built protection from overload, over-heating & over-discharge
- Rechargeable Lithium-ion batteries

**Product Code: P3500 35/0561 & P7000 35/0598**

# FUEL SOLUTIONS

## Our fuel solution packages cover everything from simple fuel supply, to a fully managed service.

If you use fuel on-site, we can help you run more safely, economically and sustainably.

We are the only hire company with a dedicated and established fuel business. From 20 litres to 35,000 we'll provide a solution to best suit you – whether you want a straightforward, competitive fuel supply or a fully managed national service that can help you reduce consumption, minimise deliveries, and support your environmental goals.

### FUEL SECURITY AND ACCOUNTABILITY

Ensuring the security of your fuel on-site has never been more vital, using the Speedy Hire fPod's secure fob access you can restrict unauthorised fuel withdrawal. The 4G data connection sends records of every fuel withdrawal to our cloud-based system that automates management information report emails, delivering accountability for every last drop of your fuel.

### CONTROL AND AVAILABILITY

Our wide range of supply and management services give you ultimate control over fuel costs, uplift and monitoring, while our partnership with the largest supplier and distributor in the UK, guarantees fuel availability wherever you need it.

### WHY CHOOSE SPEEDY FOR FUEL MANAGEMENT?

- From HVO and polished fuel to fuel management Speedy Hire's proposition offers the greatest value in the industry.
- Automated remote monitoring and ordering with the fPod, meaning fewer deliveries to site and reduction in carbon emissions from transport to site.
- Secure fob operated on-site storage, restricting unauthorised fuel withdrawal.
- 48hr standard service and emergency.
- Our fPod fuel storage solutions provide full security and traceability of your fuel on-site.
- Access to Speedy Hire's buying power providing best value and guaranteed fuel delivery.
- Our out of hours service provides support to our customers at any time of day.
- Detailed online management information.

**AT KELTBRAY GROUP  
WE CONSUMED OVER  
9M LITRES OF FUEL IN  
2019, BY EXPANDING  
OUR PARTNERSHIP WITH  
SPEEDY HIRE, WE MADE  
SAVINGS OF JUST UNDER  
£250,000 (IN 2020).**

# GREEN D+ HVO FUEL FROM SPEEDY HIRE

**HVO stands for Hydrotreated Vegetable Oil, a form of renewable diesel that has been produced from vegetable fats and oils. Unlike regular biodiesel, hydrogen is used as a catalyst in the creation process instead of methanol.**

FAME-free and fossil-free environmentally-friendly alternative to mineral diesel with a wide range of OEM approvals for use in modern vehicles, generators, construction machinery and industrial power systems.

## **What it is made from?**

- Animal fat from food industry waste
- Fish fat from fish processing waste
- Residues from vegetable oil processing
- Used cooking oil
- Technical corn oil
- Tail oil pitch
- Has a special additive to chemically reduce NOx by up to 30% not found in other HVO fuels

## **HELPING YOU TO FUTURE PROOF YOUR DIESEL POWERED FLEET.**

### **WHY CHOOSE GREEN D+ HVO FUEL?**

- Delivers same performance as regular diesel. Safer handling, reduced emissions and cleaner burning. Up to 90% reduction in harmful emissions.
- Uses the same tanks and pumps as regular diesel. Simply top up your existing stock and go.
- Copes with low temperatures (-42 CPP) and is stored in the same way as regular diesel.
- Lasts longer in the tank and gives better fuel stability than diesel.
- Price competitive with regular diesel.
- Has a special additive to chemically reduce NOx by up to 30% not found in other HVO fuels.
- Odourless – ideal for use in generators at events.

# FUEL PRODUCTS

## FPOD®

**The fPod® is a single refuelling point for any site, servicing every fuel user and contractor. The service reduces vehicle movements and fuel containers on-site, with environmental, safety and cost benefits to all users.**

Fitted with an intelligent monitoring system, and as part of our fuel management service the tank is monitored and refuelled to ensure constant fuel supply and productivity on-site.

### HOW IT WORKS

- The fPod® complete with digital pump dispensing unit operates via a fob-activated system.
- Our fPod® fuel storage solutions provide full security and traceability of your fuel on-site.
- The user is separately invoiced based on all usage recorded.
- The fPod® will be automatically filled by Speedy Hire using a remote monitoring system reducing risk of fuel run-out.
- A trained site operative should be appointed on site to manage all dispensing, where a Speedy Hire on-site manager is not present.
- The single location on site reduces fuel spillage risks through the controlled refill environment.

- Vehicle movements to site are reduced by having a single refuelling point for all fuel users, removing the need for multiple bowsers and deliveries.
- Shared commercial benefits are available to all users through a bulk purchasing process.

**FPOD® THE SUSTAINABLE FUEL SOLUTION. ACHIEVE A CARBON REDUCTION FROM INCREASED FUEL STORAGE CAPACITY AND MANAGEMENT OF THE ON-SITE FUEL DELIVERY SYSTEM.**

**FPOD® ELITE**  
**IN ADDITION TO ALL FEATURES OF THE FPOD® THE NEW FPOD® ELITE DELIVERS, A SINGLE REFUELLING POINT FOR YOUR SITE THAT SERVICES EVERY FUEL USER AND CONTRACTOR ON SITE, DUE TO ABILITY TO DIRECTLY BILL ALL SUBCONTRACTORS FURTHER REDUCING CARBON EMISSION AND SPILL RISK.**

# STAGE V EMISSION COMPLIANT POWER GENERATION

**We have partnered with EminoX, the Global leader in the design and installation of bespoke retrofit Diesel Particulate and Selective Catalytic Reduction systems.**

This partnership gives Speedy Hire the ability to provide Stage V emission compliant power generation solutions that fully comply with NRMM legislation and approved by the Energy Savings Trust.

These systems ensure your site and operations are fully compliant with the NRMM requirements.

EminoX based in Gainsborough, Lincolnshire have been producing specialist DPF systems for over 25 years and are recognised as a global leader and were awarded the Queens award for enterprise in 2020.

# GREEN POWER HIRE BATTERY GENERATOR

## Our battery generator works alongside a diesel generator to create a hybrid power solution.

The battery system automatically controls the generator, minimising run time whilst delivering a constant power supply to any application. The system also reduces fuel consumption, noise and CO<sub>2</sub>e emissions.

### WHY SHOULD YOU CHOOSE A HYBRID GENERATOR?

- **CARBON AND EMISSIONS:** Significantly reduced CO<sub>2</sub> and NOx emissions, could equate to higher BREEAM scores.
- **FUEL SAVINGS:** Less fuel consumed compared to traditional generator sites.
- **SILENT OPERATION:** Reduces noise pollution, great for residential and restricted areas.
- **COST SAVINGS:** Decreased number of service visits to site, hence less servicing and maintenance costs.

## ACQUISITION OF GREEN POWER HIRE LIMITED POSITIONS SPEEDY AS A LEADING PROVIDER OF BATTERY STORAGE UNITS

*“The acquisition of Green Power Hire is further evidence of our Velocity strategy in action, strengthening our market leadership in combining product innovation and sustainability, and positioning Speedy well in a high growth segment of the market.*

*Alongside investments such as our partnership with Niftylift Ltd and our proposed JV with AFC Energy, the acquisition progresses the sustainable and technological evolution of the sectors we operate in, supports our ambitious plan to become a net zero business by 2040 and will deliver long term benefits to our customers, our people and our investors.”*

**Dan Evans, Chief Executive, Speedy**

## SOLAR POD

- The Solar Pod harvests the sun's free energy to provide a sustainable power source by combining solar PV, battery storage, a back-up generator and a 400 litre fuel tank in a safe and secure self-contained unit.
- Great for sites of all sizes, just one Solar Pod can power up to five accommodation units using its impressive power output of 50 - 60kVA.

## SOLAR HYBRID GENERATOR

- A state-of-the-art sustainable power solution, great for remote sites such as construction, railway and roadworks.
- Using the Solar Hybrid Generator you'll benefit from a reduction in CO<sub>2</sub> emissions, reduced fuel costs, reduced noise, pollution and reduced generator run time.

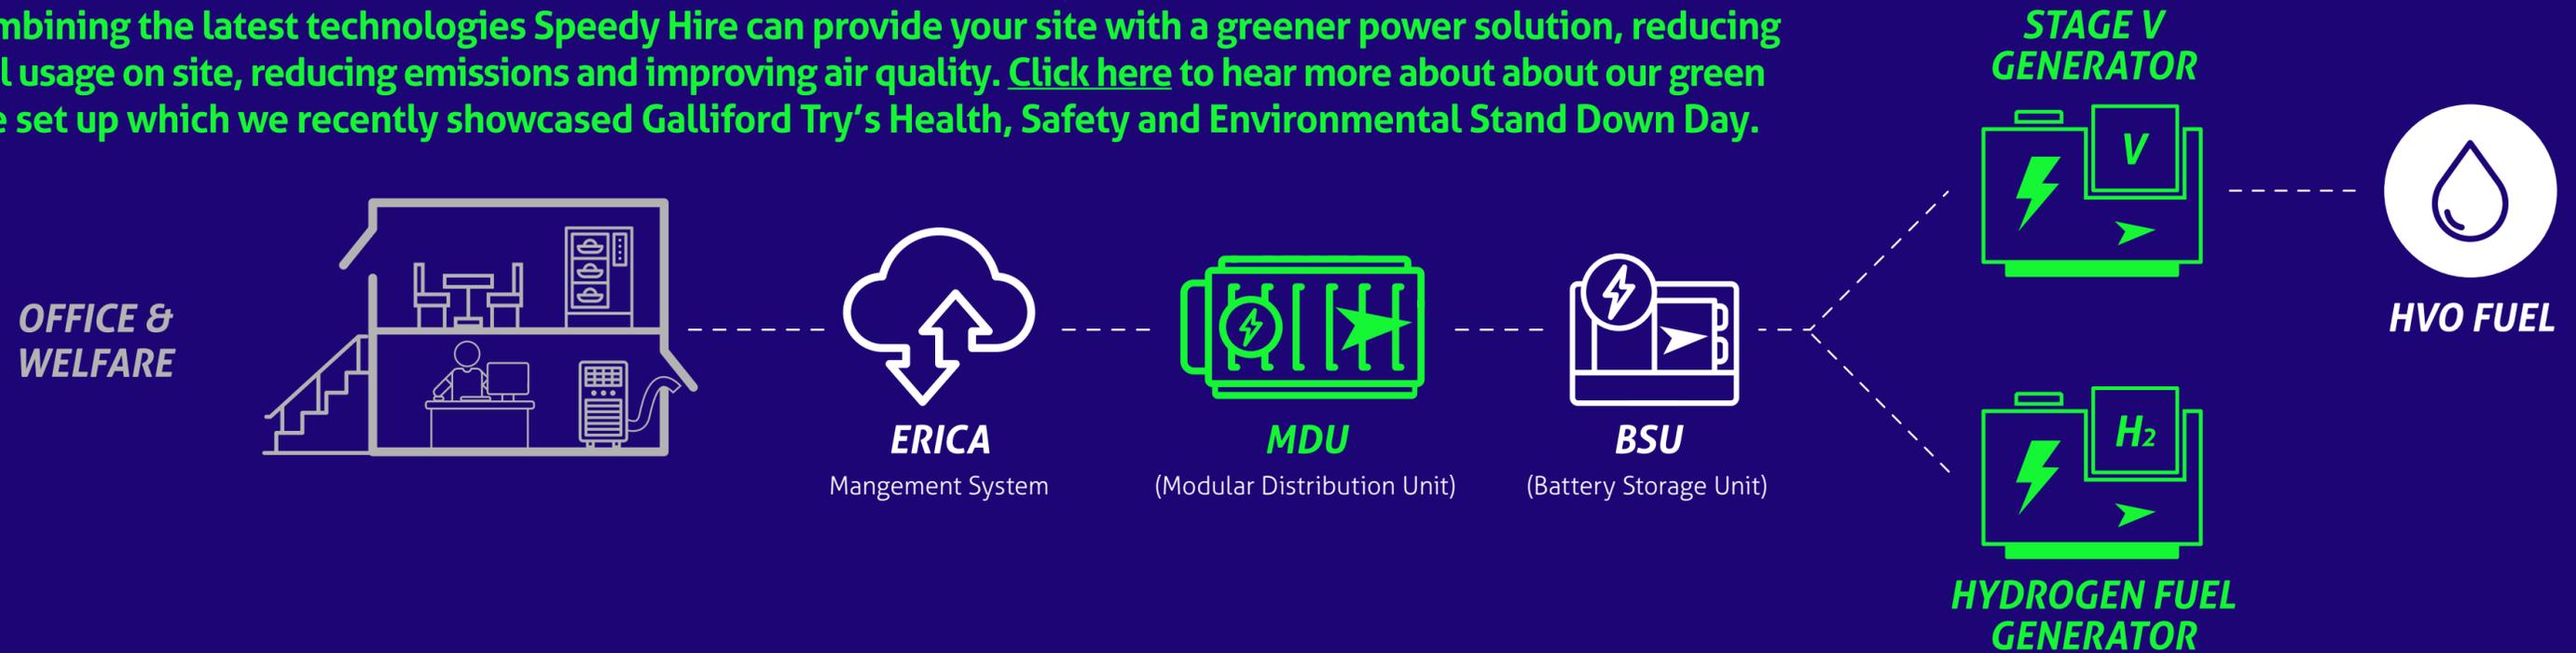

## ELECTRIC VEHICLE CHARGER

- Fully weatherproof electric vehicle chargers offering a cost-efficient environmentally friendly way to charge your vehicle whilst on site.
- These free standing units can charge any electric vehicle through a single power output of 7kW to ensure fast and effective charging.

# EXAMPLE GREENER POWER SET UP

Combining the latest technologies Speedy Hire can provide your site with a greener power solution, reducing fuel usage on site, reducing emissions and improving air quality. [Click here](#) to hear more about about our green site set up which we recently showcased Galliford Try's Health, Safety and Environmental Stand Down Day.

## ERICA ENERGY MANAGEMENT SYSTEM

All of the information from this set up is then fed into Erica, a power monitoring solution that has been developed to support onsite power management by recording usage across multiple connections.

Recording power used, and storing this in the Cloud, an analysis can be carried out to identify:

- Where power may be wasted
- How to configure the site for lower usage
- Encourage good onsite discipline

## BATTERY STORAGE UNIT

A battery storage system works between your MDU and Generator to create a hybrid power solution, storing any excess power produced.

The battery system automatically controls the generator, minimising run time whilst delivering a constant power supply to any application.

## STAGE V GENERATOR

Speedy Hire can provide Stage V emission compliant power generation solutions that fully comply with NRMM legislation and are approved by the Energy Savings Trust.

Our retrofit solutions ensure your site and operations are fully compliant within the most stringent NRMM ultra-low emission zone boundaries.

## HYDROGEN FUEL CELL

Additionally, by using the battery storage unit in conjunction with a hydrogen fuel cell as an additional source of power, you can drastically reduce or even potentially eliminate the use of the generator on your site.

The electro- chemical reaction combining hydrogen with oxygen, is near-silent in use and only emission is water vapor, avoiding all the polluting emissions associated with petrol and diesel.

## HVO FUEL

Fuelling your Stage V generator with HVO Fuel can provide a further reduction in emissions.

Speedy Hire's Green D + HVO improves air quality, by reducing CO<sub>2</sub>e levels up to 90%, particulate matter levels by 88% and NOX by up to 30%.

# ACCOMMODATION

Product range

## SOLAR WELFARE VANS

- Our solar welfare vans provide on the move welfare facilities including full canteen facilities, hot water on tap, full-sized sink, unisex toilet cubicle and a drying room.
- Their roof mounted solar panel means these innovative welfare vans can run all welfare facilities inside the van solely from its solar panels by harvesting the sun's free energy.

## SOLAR LOO

- The Solar Loo is the eco-friendly option to on-site toilet facilities. These self contained units use their roof mounted solar PV panels to convert sunlight into electricity and are up to and allows up to a 96% reduction from baseline carbon emissions.
- Reduce your sites carbon emissions whilst providing high quality sanitary facilities.

## ECOSMART SOLAR MAX

- Ultra-modern and designed with sustainability at its core for maximum energy and cost savings.
- Extra large roof mounted solar panels and a lithium battery bank ensure maximum energy harvesting and storage, whatever the weather.
- Enjoy first class welfare facilities, sustainably powered, with a Stage V emission compliant back up HVO fuelled generator in place for ultimate peace of mind.

## ECO 12, 16 AND 24

- With unrivalled environmental credentials, the ECO range allows you to care for the planet while still offering top-class site welfare facilities with no drop in performance or quality.
- These easy to manoeuvre, towable self-contained welfare solutions have a fully-equipped canteen, separate toilets, drying room, storage solutions and office options.

## ULTIMATE ECO 20FT MOBILE WELFARE UNIT

- Solar powered with remote monitoring, the Ultimate ECO can boast near zero emissions with coupled with the use of HVO fuel.
- The unit will reduce water waste due a combination of grey water recycling, microflush toilets and waterless urinals.
- Can be towed site to site reducing transportation costs
- Network Rail approved

## ECO CHARGE

- The ultimate on-site stand-alone tool charging station.
- Charge tools and other equipment easily and conveniently.
- Lockers accessed from inside cabin for added security and protection from the weather.
- Powered by free renewable solar energy with HVO biofuel generator back up if required.

# PLANT

Product range

## **DW15E - THE ELECTRIC WHEEL DUMPER WITH ALL-WHEEL DRIVE**

- This is the zero emission, four wheel drive, wheel dumper DW15e making it the ideal material handling support, wherever no exhaust or noise emissions is wanted or allowed, such as in inner city areas or building interiors.
- The articulated joint adapts to any unevenness providing all the necessary stability on uneven terrain and the small dimensions make it unbeatable when it comes to transport.

## **JCB 525-60E COMPACT TELEHANDLER**

- The new 525-60E is the first of the electric generation and JCB's first fully electric compact telehandler. It lets you do a full day's work on a single charge, giving you access to a whole new world of possibilities.

## **ELECTRIC COMPACT EXCAVATOR**

- The new 19c-1e gives you the freedom to work anywhere, anytime with quick charging and enough battery life to let you work for a full day on a single charge.
- With 3 charging options, you can get to work when and where it suits you.

## **TUFFTRUK BENDIE EB300 MINI DUMPER 4X4 BATTERY SWL 300KG**

- The Tufftruk BENDie EB300 walk behind mini dumper is compact, versatile and environmentally friendly suitable for use in the garden or domestic applications and noise sensitive environments.

**Product Code: 27/0105**

## **TUFFTRUK BENDIE EB500 MINI DUMPER 4X4 BATTERY SWL 500KG**

- The Tufftruk BENDie EB500 walk behind mini dumper is compact, versatile and environmentally friendly suitable for use in the garden or domestic applications and noise sensitive environments.

**300KG SIZE ALSO AVAILABLE**

**Product Code: 27/0106**

[HOME](#) [CONTENTS](#)

# CRANES

Product range

## ELECTRIC TELEHANDLER F626

- Offering the same performance as an equivalent conventional telehandler model but without the noise of a combustion engine.
- The electric telehandler 2.6 tonnes operates with zero CO<sub>2</sub> emissions and is a pioneer within the materials handling equipment industry.

## GF250 PICK & CARRY CRANE MCGF250

- The battery powered GF250 is capable of lifting 25 tonnes to a height of 1.5m.
- The perfect choice for heavy duty lifting in workshops, yards, marinas, aircraft hangers, factories, construction sites and more.

## ECO 295-3 UNIC MINI SPIDER CRANE MCU295-3B

- The battery powered UNIC URW-295-3 retains all the benefits of the standard URW-295 model, but sees the addition of variable, adjustable outriggers, enabling this mini crane to operate around fixed obstacles on site to suit the lifting requirements.

# PUMPS

Product range

## S160ECO5

- The S160Eco5 is one of the quietest and most reliable solids handling pumps on the market, suitable for use in low emission zones, this pump is ideal for most solid handling jobs.
- Stage V pump designed to handle large solids including raw sewage and fibrous solids without blocking.
- Reducing emissions without solids without blocking sacrificing performance.
- HVO fuel compatible.

## SIPHONING SYSTEM

- This system of pumping is an environmentally friendly way of pumping, requiring little maintenance once it is up and running.
- Eco-friendly pumping solution perfect for pumping downstream and bypass pumping.
- Saves on fuel and upkeep costs.
- Ideal for raw water.
